Add data

Once you have added your data, you can print the Application for enrollment.
You must sign this application form and send it together with the required documents (see document checklist) by mail to the Technische Universität München, Abteilung Bewerbung und Immatrskulation. Repeated submission of individual documents by mail leads to considerable delays in processing your application. If you are unable to mail all required documents at once, always include the first page of your Application form for enrollment, including your applicant and application number.
